ABOUT ME:

An ambitious engineer seeking a challenging opportunity with an organization where I can utilize my technical skills. I am seeking to contribute to the organization with hard work, sincerity, patience, and dedication.

EDUCATION

FROM 03/2017 TO 1/2022

BACHELOR OF CHEMICAL ENGINEERING, KING FISAL UNIVERSITY

With Very Good Grade and GPA 3.79/5

SPECIAL COURSE:

ENGINEERING OF NATURAL GAS

The Course Covers the Design and Operations of Systems Related to The Hydrocarbon Gases and Liquids for The Industrial and Commercial Applications

MEMBRANE SEPARATION TECHNOLOGY

The Course Covers in Details Membrane Separation Technology and Their Wide Range of Applications Including Water Treatment and Desalination.

CHEMICAL PROCESS SAFETY

The Course Covers Hazards of Fire and Explosions, Local and International Codes and Regulations, Handling and Disposal of Hazardous Materials, Hazard Identification and Risk Assessment from Process Industries, Safety Procedures For Process Industries, Emergency Plans.

EXPERIENCE

TRAINEE

06/2021 – 08/2021

KING SAUD UNIVERSITY FOR HEALTH SCIENCES (KSAU HS)

The Training Focused on The Science and Technology of Water Treatment. Familiarization Was Obtained with The Usage of Some Lab Materials and Reagents According to Analysis Needed and Have Been Applied To Quality Control Of Water

MEMBERSHIP

AMERICAN INSTITUTE OF CHEMICAL ENGINEERS (ALCHE)

SACHe Certificate Program in Lab Safety.
SACHe Certificate Program in Chemical Reactivity Hazards
SACHe Certificate Program - Runaway Reactions

SKILLS

- Leadership And Organizing Skills
- Ability To Work Under Pressure
- Self-Learning
- English Language
- Ability To Work in A Team
- Problem Solving

PROGRAMS

- MS Office
- Aspen Plus
- MATLAB
- Polymath
