

## CURRICULUM VITAE

### **KARTHIK KUMAR N**

#2514, Al Amir Turki, Al Kurnaish Dist.

Al Khobar 34412, KSA

Mobile : +966-540480303

E-Mail : [npkarthikumar@yahoo.com](mailto:npkarthikumar@yahoo.com)

### **Job Objective**

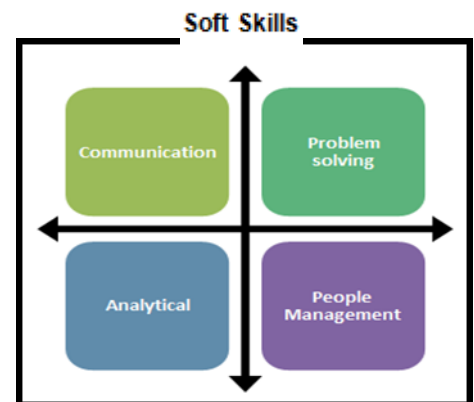

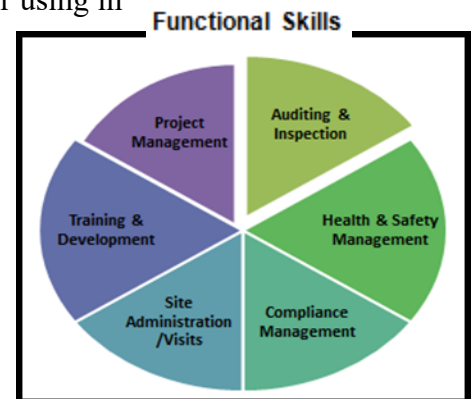

To practice my profession in more challenging way, share my knowledge, expertise, and express my ability of specialization as a civil engineer. To develop and gained more knowledge through sharing of ideas with my peers of different nationalities and be part of successful company in achieving the vision and goal. Energetic individual with 10+ years of experience in the civil engineering field. Seeking a Quality Manager (civil) job position.

### **Profile Summary**

#### CORE STRENGTHS

**Project management, Quality Management, site construction Planning & Management, Procurement and sourcing, HSE Initiatives, Work force management, Liaising & Co-ordination, Estimation and Cost Control, Documentation, Administration**

- Testing construction materials, such as concrete, asphalt, or steel, for using in projects.
- Undertaking technical and feasibility studies including site investigations
- Analyze survey reports and other data to get approval from client
- Manage the repair, maintenance, and replacement transportation structures such as Bridges, Culverts and other public utilizes like Community Play Parks, Light poles etc.,
- Comparison study of materials as per the client requirement prior to start work.
- Preparation Method Statement and ITP as per the Contractual requirements.
- Maintaining diplomatic relationship with client.
- Well experienced in Thermal power plant projects and boiler constructions.
- Expertise and experience in construction boiler units, cooling Tower, wastewater treatment plant, DM plant, clarifier, Coal Handling Plant (CHP) and structural works.
- Ability to work independently as a team leader and design the full project right from concept
- An effective communicator with demonstrated ease at allocating resources, training and working along with teams.

## Core Competencies

### PROJECT AND QUALITY MANAGEMENT

- Monitoring and controlling projects with respect to cost, time over-runs and quality compliance to ensure satisfactory execution of projects.
- Participating in project review meetings for evaluating project progress & de-bottlenecking.
- Managing overall operations for executing civil projects within cost & time norms.

### QUALITY MANAGEMENT

- Cultured in all kinds of QA/QC inspection plan & procedures such as Inspection Test Plan (ITP), Quality Control Plan (QCP), Non-conformance report (NCR), material inspection and RFI requisition, Hold Point Release (HPR), Condition Survey, Technical Queries (TQ), Field Change Design (FCD), Quality Action Notice (QAN).
- Internal Auditing and External Audit to suppliers manufacturing unit and sub-contractors office.

### SITE MANAGEMENT/ SUPERVISIONS

- Preparing RFI (Request For Inspection) for all civil activities like Excavation, Backfilling, FDT (Field Density Test), Lean concrete, Reinforce concrete, Curing, Moisture test, Surface preparation, Concrete coating, DFT(Dry Film Thickness).
- Surveillance inspection of all civil ongoing activities at project site.
- Witnessing of the testing of compressive strength of concrete at the 3rd party laboratory.
- Witnessing of Field-testing like Compaction test FDT (Field Density Test) and Dry film thickness.
- Inspection of concrete finishing and building finishing according to standard and specification.
- Inspection of all formwork and Reinforcement steel work as per standard.
- Liaise with the contractor's field staff and Third party laboratory to ensure that all required testing has been performed as per standard.

### RESOURCE PLANNING & CONTROL

- Planning for material & developing vendors for obtaining timely procurement of materials & machineries at cost effective prices to ensure smooth execution of projects.
- Ensuring suitable deployment of manpower and timely availability of manpower (Contractor and Engineers); coordinating with contractors and providing them with all the detailed construction documents.
- Leading, mentoring & monitoring the performance of team members to ensure efficiency in process operations and meeting of targets.

### RELATIONSHIP MANAGEMENT

- Conducting site inspection, opening / penetration checking as per drawing.
- Drawing, material submittals and project specifications.
- Verifying shop drawings based on construction drawings and material inspection based on project specifications.
- Generating servicing schedule and its implementation and maintaining service register, report, etc.
- Developing effective understanding and coordination of design services and specifications.

## EDUCATION

- **Bachelor of Engineering (Civil Engineering)** from Anna University - 2010 (Hindustan College of Engineering)
- Other (Membership and training)
  - Project Management Institute
  - Toastmasters International
  - National Association of Corrosion Engineers (NACE)
  - Saudi Council of Engineers

## ORGANISATION EXPERIENCE

Company : **RAWABI SPECIALISED CONTRACTING Co.,**  
Client : **Royal Commission, Al-Jubail**  
Consultant : **Bechtel Corporation**  
Period : Aug 2019 to Present  
Designation : Quality Manager  
Project : Protection work for Pipeline structures (560-C37)

### Project Description

Infrastructure development of Jubail Industrial City is one of the largest Civil Engineering Project in the world. Repair & Rehabilitations of transportation structure like Bridges, Culverts, Pipe Racks, Pipe sleepers and Construction of new Fibre Reinforcement Pipe (FRP) Arch Culvert and other facilities such as Community Play Park, Royal Commission Beach camp & Sea Club etc.

### Key Deliverables

- Direct reporting to Project Manager.
- Conducting supplier quality & capability assessment before placing an order and also conducting audit for approval from Royal Commission as per Quality Control Program guideline specification.
- Conducting and participating Quality Management System (QMS) audit and reporting the same to management and client.
- Conducting and participating Management Review Meeting (MRM) and highlighting the project Key Performance Indicator (KPI) evaluation, customer related compliances and lessons learned (LL) towards improving project acceptance rate.
- Participation of project quality plan, procurement plan & inspection co-ordination plan documentation preparation
- Review and approval of subcontractor & Supplier project quality plan, procurement plan and other quality documents.
- Participating in supplier Kick off meeting as well as sub-contractor KOM after placing the purchase order and contract to deliver the quality requirement well in advance.
- Review and approval of Material requisition and adding quality & technical requirement based on client & international specification.
- Providing consulting service to Engineering on requesting Field Change Design (FCD) and Technical Query (TQ).
- Review and approval of Technical Bid Evaluation from various suppliers and checking to meet the client requirement.
- Vendor quality document review and approval which includes ITP, QCP and all quality related documents.
- Review and approval of Inspection Assignment Package (IAP) before submission to client.
- Conducting and participating the scheduled audits as per QCP and provides the resolution for audit findings and reporting to client.
- Identifying the gap, from the audit finding data and doing gap analysis to improve the quality system.

- Conducting awareness sessions with all departments to improve the document submittal to client intents to reduce the rejection rate and improve the PQI score.
- Conducting awareness session among the team for better communication and to avoid any repeated quality related issues.
- Managing the quality of safety.

Company : **AL JALHAMI CONTRACTING Co.,**  
 Client : **Royal Commission, Al-Jubail**  
 Consultant : **Bechtel Corporation**  
 Period : Sep 2016 to Jun 2019  
 Designation : Quality Manager  
 Project : Corrosion Repair and Protection work (560-S29)

## **Project Description**

Infrastructure development of Jubail Industrial City is one of the largest Civil Engineering Project in the world. Repair & Rehabilitations of transportation structure like Bridges, Culverts, Pipe Racks, Pipe sleepers and Construction of new Fibre Reinforcement Pipe (FRP) Arch Culvert and other facilities such as Community Play Park, Royal Commission Beach camp & Sea Club etc..

## **Key Deliverables**

- Preparing Method Statement, Inspection Test Plan (ITP), Quality Control Manual (QCM), and Construction Inspection Plan as per the contractual requirement prior to get approval to start work.
- Submitting material approval as per the client specification.
- Preparing RFI (Request For Inspection) for all civil activities like Excavation, Backfilling, FDT (Field Density Test), Lean concrete, Reinforce concrete, Curing, Moisture test, Surface preparation, Concrete coating , DFT(Dry Film Thickness) .
- Doing internal Audit and external surveillance Audit to supplier manufacture and Sub-Contractor.
- Documentation of all RFI's (Request for Inspection) after signed by the consultant.
- Surveillance inspection of all civil ongoing activities at project site.
- Witnessing of the testing of compressive strength of concrete at the third-party laboratory. Field testing like Compaction test FDT (Field Density Test) and Dry film thickness (DFT).
- Co-ordinate with Consultant regarding the site activities and site visits.
- Inspection of all formwork and Reinforcement steel work as per IFC drawing.
- Inspection of roads and utility diversions, earthworks, waterproofing, concreting & asphalt work.
- Issuing the NCR (Non-Conformance Report) for any non-conformance.
- Conducting material inspections for all CIVIL items delivered at the site.
- Ensure all work is correctly prepared prior to any inspection being undertaken
- Review all inspection reports for compliance.
- Coordinate with the site subcontractors to ensure that communications exist and are maintained

- Conducting weekly QC meetings with key personals and workers.
- The completion of QC site instructions and coordinate their closure The review of inspection test packages during the course of construction activities
- Managing the quality of safety.

Company : **SIMPLEX INFRASTRUCTURE LIMITED**  
 Client : **M/s GUJARAT STATE FERTILIZERS AND  
 CHEMICALS, JAMNAGAR, GUJARAT**  
 Designation : Quality Engineer  
 Periods : Mar 2015 to July 2016  
 Project : Extension of Fertilizer Unit II

### **Project Description**

Construction of Fertilizer storage yard (Bulk Silo), Concrete Conveyor Line upto 1.7km, Transmission Tower Line with different varying heights.

### **Key Deliverables**

- Responsibility to ensure that work activities has executed in accordance with the latest approved construction drawings, work specifications and related method statements.
- Prepare method statements, inspection & test plans to getting approval from Clients.
- Coordination & direct supervision on all activities related to laboratories & field tests.
- Auditing and inspection for ready mix concrete, asphalt batch plants and material suppliers.
- Reviewing plans and specifications for completeness and accuracy, and make recommendations to resolve technical conflicts.
- Preparing RFI (Request For Inspection) for all civil activities and documentation for Audit.
- Performing different tests for (Soil, Concrete, and Asphalt) in the lab (Gradation, Proctor PI, Extraction tested...) and in the site (field density test, sampling concrete, Asphalt spread area, Core etc...) if required. Performing concrete and asphalt mix design.

CHHATTISGARH**  
Designation : Project Engineer  
Periods : Jan 2014 to March 2015  
Project : **4x360Mw THERMAL POWER PLANT**

#### Project Description

Construction of Turbine Generator (TG) Building upto 57m ht with coalbunker, 400kW Switchyard, GIS building, Power transmission line foundation and transformer yard.

#### Key Deliverables

- Conducted regular site inspections to ensure compliance with safety standards.
- Quality of work as per QUALITY CONTROL PROGRAM (QCP) and client specification.
- Monitoring of the execution team and Coordinating with the other staff as per requirement
- Preparing BBS & Quantities for the structures.
- Material requirement and arrangement.
- Preparation of Company Invoice, Vendors Bill and Labor bills.
- Detailed Micro Schedule Planning for each activity.

Client : **M/s RELIANCE DMD, DAHEJ, BHARUCH**  
Designation : Project Engineer  
Periods : Aug 2012 to Jan 2014  
Project : Extension of Water Treatment Plant for Unit II

#### Project Description

Construction of Effluent Treatment Plant (ETP), Aeration Tank, Effluent Collection Sump and Backwash waste collection sump.

#### Key Deliverables

- Conducted regular site inspections to ensure compliance with safety standards.
  - Preparing BBS & Quantities for the structures.
  - Evaluated all material specifications as per company standards.
  - Detailed Micro Schedule Planning for each activity.
  - AUTO CADD modelling for critical structure for detail studies.
  - Preparing JMR sheet (Joint Measurement Record) for additional scope of work.
- 

Company : **CETHAR LIMITED formally CETHAR VESSELS  
LIMITED**  
Client : **GARDEN SILK MILLS LIMITED  
ABG CEMENT., SURAT, INDIA  
BHARAT HEAVY ELECTRICALS LIMITED**  
Designation : Engineer  
Periods : May 2010 to July 2012  
Project : Construction of Thermal Power Plant (Civil Structures)

#### Project Description

Construction of Construction of Boiler up +7.00m, TG building and TG deck slab, ESP, WTP, cooling tower, ACC, Fly ash Silo, Chimney (110m Ht) and Clarifier tank with 30m dia.

## Key Deliverables

- Constructing and executing all civil work for Captive Power Project,
- Managing all work related to site execution, surveying with the help of Theodolite and preparing BBS & Quantities for the structures.
- To prepare estimation for civil work Dedicated and meticulous towards the assigned work.
- Construction of all the machine foundation as per Drawing
- Verified the contractors bills and forward to account dept. for their checking and approval to release the payment
- Conducting weekly meetings and coordinating with client, consultant, and local bodies.
- Monitoring day-to-day execution, planning, supervision, scheduling monitoring and controlling of all civil constructions activities to complete the project in time.
- Executing lay out inspection and levelling works cost estimation, quantity and rate analysis of all activities.
- Chimney foundations & shell casting in slip form method
- Providing direction to the contractors and field staff for ensuring productivity, cost efficiency and quality control during the entire span of project execution.
- Material reconciliation statements.
- Preparing the DPR& Daily Logistic Report (DLR) and sending to the co-ordinator and checking quality & quantity of Materiel procurement.

## **EXTRA CURRICULAR ACTIVITES**

### COMPUTER PROFICIENCY:

- MS office with typewriting
- Auto CADD
- STADD PRO
- Primavera P6 (Inhouse training)

### RESEARCH PROJECTS: -

- Flexural Strength of High-Performance Concrete Beams with Partial Replacement of Cement By Ground Granulated Blast Furnace Slag (GGBS).

### PAPER PRESENTAION: -

- Lightweight concrete structures
- Composite construction
- High performance concrete
