CAREER OBJECTIVE

To be exposed to a challenging environment that will improve my skills and career growth, and to share my knowledge and expertise to the company with loyalty and dedication.

WORK EXPERIENCE

CKU Steel Corporation (formerly GESMI)
Brgy. Mainaga, Mabini,
Batangas Philippines
POSITION: HSE Practitioner
August 16, 2017 up to present

Duties and Responsibilities

- Advise and monitor the compliance of project relevant safety laws, codes of practice and standards applicable to the project.
- Advise and assist the Site Engineers/Supervisors to develop and strictly implement the SHE requirements at site.
- Lead by example in promoting SHE programs at every opportunity.
- Prepare and conduct the orientation/induction courses for the project team & visitors.
- Monitor all safety activities on the project site and report the findings to the Executive Project Manager.
- Compile all statistical records and reports of safety performance.
- Participate in regular workplace inspections and audits.
- Facilitate 'Tool box talk' on a regular basis and stimulate high level of safety awareness at all times.
- Ensure appointment of competent personnel,
- Conduct regular equipment inspections and maintain records.
- Implement emergency response system and procedures.
- Directs the resources and activities of the Division to support the SHE programs by providing advice and guidance to the Company's Senior Management.
- Review internal SHE policies and practices to ensure they are current and appropriate; conduct hazard and risk assessments and change existing, or develop new recommendations from these assessments.
- Responsible for the staffing and directing the Divisions SHE Department, including the management of all Subcontractor's Safety Personnel and staff.
- Assist the project team in the investigation of all project incidents (Recordable Incidents, Near Miss and First Aid) and ensure proper records are completed and submitted. Assist in the implementation of corrective actions as it relates to the incident and ensure "lessons learned" are communicated throughout the Company and are incorporated into the program, if necessary.
- Devise, supervise, and coordinate training programs or media which will increase proficiency in safe practices and promote SHE consciousness.
- Address specific reporting and record keeping requirements of Occupational Safety and Health (OSHA), Department of Labor and Employment (DOLE), etc., as well as other

pertinent safety/regulatory compliance matters and to ensure project sites are in compliance.

- Supervise Division's SHE incentive programs and periodically review them to ensure they are accomplishing the desired results. Make necessary changes to the program to maximize effect.
- Serves as secretary to the company's SHE Committee and incident controller of the Emergency and Response Team (ERT).
- Attend monthly site safety meetings conducted by the Executive Project Manager and draft the minutes of meeting stating the agreed follow up action and responsibilities/referral to personalities.
- Responsible for the preparation of the project's Safety Program.
- Responsible for the effective implementation of project's Safety Program with its rules and regulations.
- Implement the personal protective equipment and fire prevention program.
- Implement Safety and Security Programs; safe use of tools and heavy equipment.
- Implement safe and proper handling of materials and electrical hazards.
- Disseminate the accident prevention program.
- Implement site housekeeping regulations and Site Health and Hygiene Program (Sanitation).
- Prepare mitigating measures against typhoons and bad weather conditions.
- Implement environmental protection during construction of the project.
- Implement proper road safety rules and regulations at worksites.
- Responsible for coordinating with relevant regulatory agencies regarding applicable SHE regulations.
- Conducts relevant audits and reviews of processes to determine effectiveness and compliance to the SHE Management System.
- Responsible for the management of the proper documentation of all reports, statistics, analysis, trending with reference to all incidents reported within company premises and project sites.
- Implementing Covid19 Health Minimum Standard and WHO safety protocol.
