

Career Objective:

To be professionally associated in the field of (**Quality Control Manager**) with an esteem organization with an objective to accept challenges and work hard towards achieving the goals of the organization

Bearing **SAUDI ARAMCO Approved QC Manager and SAP NO (# 70015475).**

Profile:

More than 11 **years of experience** in the field of Installation, Inspection, Testing, pre-commissioning and commissioning of static, rotating equipment, skid package units, welding and NDT of Piping & Reviewing and preparation of welding procedures, qualification of welding procedures, qualification of welders/welding operators, inspection and NDE of Golden, Hot-Tap & Tie-in weld joints for Piping, Pre-shutdown / shutdown of piping and Existing Column modification, Pipe supports and steel structures.

Education/Qualifications:

Educational Qualification : **B. TECH (Mechanical Engineer) Bachelor of Technology**
Jawaharlal Nehru Technology University, Hyderabad

COMPLETED ISO 9001:2015 LEAD AUDITOR TRAINING COURSE

Technical Certifications:

- **API 570 Piping Inspector** **Certificate No #. 65957/2**
- **CSWIP 3.1 Welding Inspector** **Certificate No #. 55128/2**
- **Project Management Professional PMP** **Certificate No #. 2805693**
- **API 653 Above Ground Tank Inspector** **Certificate No #. 54182 Expired**
- **API 510 Pressure Vessel Inspectors** **Certificate No #. 54764 Expired**

- ASNT Level-II NDT in Liquid Penetrate Testing (PT)
- ASNT Level-II NDT in Magnetic Particle Testing (MPT)
- ASNT Level-II NDT in Radiography Testing (RT)
- ASNT Level-II NDT in Ultrasonic Testing (UT)
- ASNT Level-II NDT in EDDY Current Testing (ECT)

- ATI (Advanced Training Institute) Certified Welding in **High Pressure Pipe Welding - 6G**
- ATI (Advanced Training Institute) Certified Welding in **MIG / CO2**
- ATI (Advanced Training Institute) Certified Welding in **TIG (SS, AL CU)**
- ATI (Advanced Training Institute) Certified Welding in **Quality Control**

- ATI (Advanced Training Institute) Certified Welding in **SPC (Static Process Control) Application**
- ATI (Advanced Training Institute) Certified Welding in **Metrology and Engineering Inspection**
- ATI (Advanced Training Institute) Certified Welding in **Project Planning Primavera Software**
- Post Graduate Diploma Certified in **Process Piping Design & Engineering (ASME B31.3)**

Career Summary:

- 1) (ARAMCO) UPGRADE FIRE PROTECTION & INDUSTRIAL DRAINAGE SYSTEM
- 2) (ARAMCO) ARAMCO REMOVE MERCURY FROM NGL CONDENSATE RT, REFINERY
- 3) (ARAMCO) SAUDI ARAMCO ONSHORE MAINTAINCE POTENTIAL PROJECT
- 4) (ARAMCO) SAUDI ARAMCO ONSHORE MAINTAINCE POTENTIAL PROJECT
- 5) (ARAMCO) FADHILI DOWNSTREAM PIPELINE
- 6) (ARAMCO) IBN-SINA FUEL GAS & METERING STATION PROJECT
- 7) (MA'ADEN PHOSPHATE COMPANY) Umm Wu'al Phosphate Project DAP/NPK
- 8) (ARAMCO & DOW) SADARA CHEMICAL COMPANY
- 9) (ARAMCO) THUWAL KAUST (KINGABDULA UNIVERSITY SCIENCE TECH)
- 10) (ARAMCO) MANIFA WATER SUPPLY & DOWNSTREAM PIPELINE.

Professional Work Experience:

1) **Project Title: UPGRADE FIRE PROTECTION & INDUSTRIAL DRAINAGE SYSTEM TURAIF BULK PLANT.**

Contractor EPC : - RAWABI Specialized Contracting Company
Nov 2019 to till date : - Quality Dept.
Position : - Quality Control Manager

Duties & Responsibilities of QC Manager

- Overall responsible for Quality Control activities on the project and ensuring the proper implementation of Approved Quality control procedures, Work instruction, Inspection & test plan. Close coordinating with Client representative.
- Implementation of company's Quality Management System. Preparation / Review of Project Quality Plan Technical document review, Implementation of quality inspection procedures on all Construction & procurement phases to ensure compliance with the company quality requirements.
- Responsible for the administration of the project QC department and managing all quality control Activities in Shop & Sites.
- Submit two weeks look ahead schedule for construction phase inspection activities to Saudi Aramco as per sch-Q requirements.

- Coordinate with Corporate QA/QC Manager for conducting the project site audit and implementation of resulted corrective and preventive actions proposed as a result of audit.
- Ensure Project Quality Index (PQI) maintains at satisfactory level.
- Ensuring that planned audit has been conducted as per Project Quality Plan & Sch."Q"/ISO 9001:2015 requirements.
- Submitting the Weekly Quality reports to the Client as mention in the Sch Q.
- Reviewing & Submitting the Monthly Quality management reports to the Client as mention in the Sch Q.
- Ensuring that all Inspection is carried out as per Client Requirements for Mech/Elec/Inst/Civil.
- A full quality system audit shall be carried out at 15% & 60% of completion stage for design, procurement & construction completion as per Audit schedule planned and ensured to comply the requirements of Auditor from opening meeting to closing meeting.
- Prepare and Review Quality control procedures/Special processes, Quality document submittals to the client & obtaining approvals to the required Project Quality Plan (PQP) & procedures as per contract and Schedule "Q" requirements.
- Conducting internal audits, training programs and tool box training to QC inspectors.
- Coordinating with Engineering Department during Design Stage 60%, 90% and IFC.
- Well versed and excellent understanding toward ISO 9001:2015 and industry operating standard.
- Awareness of various international codes and standards such as ASME Sec IX, ASME Sec V, B31.3,B31.4, B 31.8,API 1104 .etc.
- Awareness of Saudi Aramco desktop standard requirements such as SAES, SAMSS, SAEP, SA-175, IR's, NMR's schedule "Q" etc.
- Involved with commissioning team, Engaged with ongoing projects responsible of various activities i.e. quality document verification, field verification & witnessing of functional test, Coordination of walk through, generating & clearance punch lists, Redline mark-up "As-Built" drawing verification, System in line commissioning, start up, & performance test organize with vendors & liaise with client & proponent.

- Attending weekly coordination meeting with the customer to review the quality levels at project site.
- Follow up Corrective and Preventive actions and close out the Aramco NCR.
- Submitting the Monthly Quality management reports monthly as per Sch Q.
- Field knowledge and management capability in all disciplines (like Civil, Mechanical, Piping, Electrical & Instrumentation).
- Maintain all relative site inspection reports as per ITP (Inspection and Test Plan).
- The QC Manager directs activities for the Project Quality Organization, reporting directly to QA Manager, but maintaining an operational link with Project Manager and construction manager.
- Participate in weekly progress meeting and follow up actions related to quality issues till closure.
- To supervise the work of quality control supervisor and ensure that all discipline inspectors are reporting daily observations through strict surveillance on the ongoing construction activities and construction work is in compliance with applicable quality requirements.
- Determining with the Project Manager /construction manager where improvements are required and where necessary, recommending corrective/preventive actions.
- Assigning the Quality Personnel at various area of activities.

2) Project Title: SAUDI ARAMCO REMOVE MERCURY FROM NGL CONDENSATE.

Contractor EPC : - Sinopec Engineering Group Saudi Co. Ltd.
Sep 2019 to Nov 2019 : - Quality Dept.
Position : - Quality Control Mechanical Supervisor

3) Project Title: SAUDI ARAMCO ONSHORE MAINTAINCE POTENTIAL PROJECT

Contractor EPC : - China Petroleum Pipeline company
Dec 2018 to Sep 2019 : - Quality Dept.
Position : - Quality Control Supervisor (QCS)

4) Project Title: SAUDI ARAMCO ONSHORE MAINTAINCE POTENTIAL PROJECT

Contractor EPC : - Nasser Al Hajri Construction Company
Oct 2017 to Dec 2018 : - Quality Dept.
Position : - Quality Control Supervisor (QCS)

5) Project Title: FADHILI DOWNSTREAM PIPELINE

Contractor EPC : - Arkad Oil & Gas Construction Company
August 2016 to Sep 2017 : - Quality Dept.
Position : - Mechanical Supervisor

6) Project Title: (IBN-SINA FUEL GAS & METERING STATION PROJECT)

Contractor EPC : - Gas Arabian Services Construction Co. Ltd

Nov 2015 to August 2016 : - Quality Dept.
Position : - Quality Control Supervisor (QCS)

7) Project Title: (MA'ADEN PHOSPHATE COMPANY) Umm Wu'al Project DAP/NPK
Contractor EPC : - Dragados Gulf Construction Co. Ltd
Sep2014 to Nov 2015 : - Quality Dept.
Position : - Quality Control Supervisor.

Duties & Responsibilities of QCS Supervisor

- Supervise Project Inspection Team of QC Inspectors and coordinate QA/QC requirements for on-going projects
- Controlling all quality control activities on day-to-day basis and directly involving in all inspection activities and ensuring activities to meet quality requirements.
- Supervise team of inspectors in various disciplines such as Civil, Mechanical, E&I, Hvac, Plumbing, Piping, Welding, Coating etc.
- Ensure quality plan are implemented, documented and records maintained for quality internal audits.
- Assist construction group during project close out.
- Coordinating quality related matters to all inspection disciplines
- Ensure that all inspection and test are recorded on the appropriate form or checklist, as indicated on the relevant ITP.
- Assure all technical documents relative to site quality control are in current status.
- Verify that the quality related site activities are in accordance with the applicable codes and standards.
- Reviewing, verifying contractors Inspection Test Plans (ITP), Quality Procedures (QP) & RFI's on all site installation on all on-going and complete works.
- Reviewing Method Statement (MS) prior final approval to QA/QC Manager and Client.
- Participating in Internal & External Auditing for the Project.
- Responsible for the monitoring and supervising all works of discipline of a certain projects with respect to the scope of works, contracts, specifications, both local & international standards, IFC/Vendors drawings, site instructions, approved technical query (TQ), revisions and change orders.
- Reviews all the Non-conformance/Corrective Action Reports or Over, Short and Damage Reports
- And co-ordinates with the appropriate personnel to ensure that the prescribed actions are carried out in a timely manner and the reports closed out.
- Supervised the finish & ongoing installation of every activity, securing the requirement procedures, relevant specifications & standards which specified in the approved plans, revisions and site instructions & approved technical queries (TQ) that shall be accomplished correctly in a timely manner.
- Conducting internal audits ,training programs and tool box training to QC inspectors
- Monitoring EPC contractors & sub contractor's day to day Quality functions Implement & assist them in maintaining the Project Quality Requirement. Prepare, review & approve PQP, Procedures, ITP's, test packages, conducting planned internal audits, conducting training programs.

- Preparation, implementation, monitoring, revision and updating of the Supplier's Contract Quality Plan.
- Ensuring the Quality Management System (QMS) is effectively implemented on the project and is monitored, audited and reviewed in accordance with specified QMS requirements.
- Reviewing, verifying contractors Inspection Test Plans (ITP), Quality Procedures (QP) & RFI's on all site installation on all on-going and complete works.
- Responsible for the monitoring and supervising all works of discipline of a certain projects with respect to the scope of works, contracts, specifications, both local & international standards, IFC/Vendors drawings, site instructions, approved technical query (TQ), revisions and change orders.
- Reviews all the Non-conformance/Corrective Action Reports or Over, Short and Damage Reports and co-ordinates with the appropriate personnel to ensure that the prescribed actions are carried Out in a timely manner and the reports closed out.
- Coordinating quality related matters to all inspection disciplines.
- Ensure that all inspection and test are recorded on the appropriate form or checklist, as indicated on the relevant ITP.
- Assure all technical documents relative to site quality control are in current status.
- Material Receiving Inspection, Verification of Mill Certificates for compliance with Purchase Order and Project Specification requirements and identify nonconforming materials and preparation of necessary NCRs.
- Ensure that all Drawing are revised, approved & IFC stamped by Quality department.

8) Project Title: - (ARAMCO & DOW) SADARA CHEMICAL COMPANY (ISO CHEM-II)

Contractor : - Gusat Gulf Construction Co. Ltd
Nov 2013 to Sep2014 :- Quality Control Dept.
Position : - Oil Tank Welding Inspector.

9) Project Title: - (ARAMCO) KAUST (KINGABDULA UNIVERSITY SCIENCE TECHNOLOGY)

Contractor EPC :- Al- Muhaidib Contracting Company.
FEB 2013 to Nov 2013 :- Quality Control Dept.
Position :- Welding Inspector.

10) Project Title : - (ARAMCO) MANIFA WATER SUPPLY & DOWNSTREAM PIPELINE

Contractor : - Suedrohrbau (Nacap) Construction company
Oct 2011 to Feb 2013 :- Quality Control Dept.
Position :- Welding Inspector.

- Preparation of Method statement and Inspection test plan for above ground and underground piping. Preparation of WPS/PQR as per code & client specification & conducting test for the same.
- Inspection and monitoring of different welding processes like SMAW, GMAW, GTAW and SAW.
- Witnessing welder certificates and issuing of identity cards for the welders.
- Monitoring welder performance on weekly basis and overall project repair rate on monthly basis & Reviewing and approval of Test Packages
- Monitoring calibration of welding machines, baking, holding and portable ovens & Testing Equipments (Holiday tester and PWHT Recorder).

- Monitoring Pre-Heat, inter-pass temperature and PWHT in line with concerned WPS/PQR. And Final Loop Clearance and test package acceptance
- Witnessing Positive Material Identification report (PMI) for Alloy and S.S.
- Execution of Hot tapping, hook-up and Tie-in point activities.
- Reviewing Test packages, Line checking with contractor, making punch points and release for testing.
- Witnessing final box up with flange protocol for Piping flanges with Static & rotating Equipment and Witness of hydro, Pneumatic and service Tests.
- Review of third party documents and witnessing the same.
- Prepare Manufacturing Data Report (MDR).
- Co-ordination with NDT activities like RT, PT, MT & Hardness Test.
- Review O&M manuals from vendors and Monitor as-built drawings.
- Managing the surveillance system for all inspection activities.
- Physical inspection of pipes, fittings, flanges & valves as per purchase order & mechanical, chemical properties as per code & specification requirement.
- Inspection of pipe spool Alignment, Orientation, Material Code, piping class and Measurement.
- Reviewing PWHT Chart and witnessing Hardness report for higher thickness C.S and Alloy steels.
- Monitoring Pre-Heat, inter-pass temperature and PWHT in line with concerned WPS/PQR. And Final Loop Clearance and test package acceptance.
- Preparation, implementation, monitoring, revision and updating of the Supplier's Contract Quality Plan.
- Development, preparation, implementation and monitoring of all Contract Specific Procedures and Work Instructions.
- Review and Monitoring Sub-Contractor's Quality Systems and quality performance.
- Maintaining of Quality records and Reporting Work Quality activities.
- Supervise quantity take-offs. Review and approval of contractor's monthly invoices as per the Quantity take-off
- Overall control, supervision and implementation of Contract quality and technical requirements; resolution of quality problems; preparation and maintenance of Contract quality records.
- Review engineering design packages for constructability issues.
- Monitoring the effectiveness of all offsite facilities and sub contractors process, controls and quality performance.
- Review and respond to contractors technical queries and coordinate with Engineering Department on technical issues.
- Approving the project Quality Audit Programmed and its implementation.
- Establishing the site Project verification and documentation requirements.
- Ensuring that sufficient welding engineering and associated technical and metallurgical services are provided during the construction and installation phases
- Witnessing welder certificates and issuing of identity cards for the welders.
