With the goal of obtaining professional development, I intend on working in research field and learn about the inside and outer functioning of a fast-growing, mutli-purpose, organization because of their extensive, wide and complicated array of operations.

Educational Qualifications:

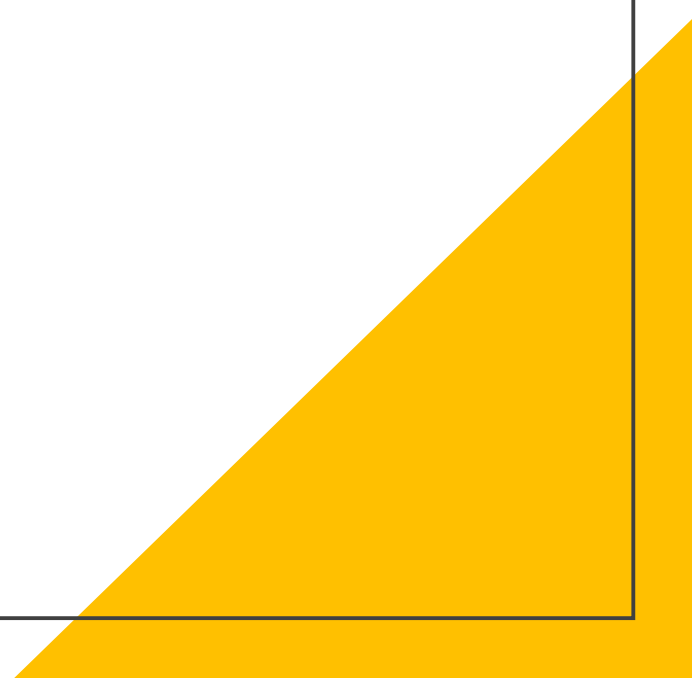

- Completed Post Graduation in Doctor of Pharmacy (Pharm D) from Sultan-UI-Uloom College of Pharmacy, Banjara Hills (2018-2021)
- Completed Graduation (Bachelors in Pharmacy; B. Pharm) from Shadan Women's College of Pharmacy, Khairtabad. (JNTU Affiliation) (2014-2018)
- Intermediate from St. Ann's Junior College, Mehdipatnam (2012-2014)
- Schooling from Kalpa School, Banjara Hills, Road No. 8 (2012)

Experience:

- **2017:** Underwent substantial training during industrial visits, **working on high-end machinery and instruments** for gaining in-depth procedure related knowledge in the **mass production and manufacturing of pharmaceutical products** along with the assessment of their quality.
- **2018:** Bachelor's project based on **Application of Reverse phase HPLC for Analytical Method development and Validation** of drug **Bis-choline Tetra Thiomolydate** in Tablet dosage form, which mainly involved comprehensive analysis of the drug, suitable solvents, procurement and economical factors for easy end-user benefit, along with implication of ICH guidelines for determination of its validity.
- **2019:** Worked as a **Pharmacy Operations Associate** at **Novasys Health Systems**, in the Medical Administrative Records department, involving thorough assessment of patient medical records (Mainly geriatrics) and reporting of major ADRs and interactions, monitoring formulations and therapy.

- **2020:** Post-graduate project on **Pharmacotherapy evaluation in Brain Cancer patients**, working in Onco-MRD of **Basavatarakam Indo-American Cancer Hospital and Research Institute**, along with **Dr. Pavan Kumar (BMT Physician and Medical Oncology Consultant)** to understand the aptness of therapy opted in patients with Brain cancer. The major reason for selection of this topic was to analyse if the cases were handled with utmost sincerity and if extensive research was being carried out, keeping in mind the prime factor, ie., Cost (Given the diagnosis of disease itself requires pricey, yet necessary tests like MRI/CT).
- **2021:** Post-graduate internship undergoing in **General, ICU, NICU and Emergency department of Olive hospital**, involving meticulous analysis of medication charts, reporting fatal interactions, submitting discharge summaries and if adequate measures are being followed to avoid any discrepancies within essential time period.
- **2021-2023: Senior researcher at Global Data Research Center** in Live updates and Regulatory and News team, dealing with updating of clinical trials, scoping of regulatory articles and research work, conducting secondary research on various news, journals, conferences for major promising drugs and of under research diseases with no available cure.

Personal Particulars:

- Father Name: Hameed Ahmed Khan
 - Place of Birth: Hyderabad
 - Date of Birth: 26th Mar 1997
 - Nationality: Indian
 - Religion: Muslim
 - Marital Status: Single
 - Gender: Female
