PROFESSIONAL SUMMARY

Astute Chemical Engineer highly-skilled in Quality Control Engineering focused on high-performing, cost-effective results across manufacturing processes. Offering extensive experience in products auditing, development and improvement implementation for optimized organization growth .

WORK HISTORY

Quality Control Engineer, 11/2012 - Current

Abdullah Hashim Industrial Gases And Equipment Co. Ltd| AHG, Ad - Dammam , Saudi Arabia

- Worked as QC Engineer and QC Analyst for AHG in Jeddah, Jizan , Riyadh and Dammam .
- Handled responsibility to work independently at QC laboratory dedicated for testing acetylene and carbon dioxide.
- Carry out day-to-day duties accurately and efficiently.
- Analyzing data and plotting them onto quality control charts .
- Defining corrective actions for non-conforming products and complaints for continued quality improvements.
- Use hand tools, instruments, gauges and equipment to complete accurate measurements and noted results for official records.
- Evaluate items to assign grades and marked quality level, rejection status or acceptance.
- Carry out necessary tests for pre-operational process of new projects of cryogenic liquids vessels/tanks installed by AHG at external customers sites aside in a teamwork of TSD and QC engineer.
- Running frequent calibration to ensure optimized accuracy in analyzing instruments.
- Ensuring adherence to safety regulations for continued company compliance.
- Monitoring and recording environmental performance metrics to measure and report cooperation with environmental goals and requirements.

SKILLS

- Excellent time management
- Supervising skills
- Technical writing
- Instrument testing
- Workplace safety
- Communication skills
- Extremely organized
- Attention to details
- Quality assurance
- Chemical Engineering
- Auditing and Analysis
- Compliance monitoring
- Self-motivated

INTERESTS

- Reading
- Calligraphy
- English Literature
- Poetry
- Foreign Languages and Philology
- Jogging, Walking and Football

LANGUAGES

- Arabic: native
- English: Advanced
- German : Limited Understanding proficiency

- Maintain data records for ISO 17025 and ISO 22000 FSMS.
- Mentoring and training personnel on procedures to protect health and maintain personnel safety.
- Preparation of working procedure for new instruments.
- Measuring and monitoring quality performance against agreed KPI's, implementing recommendations as needed.
- Collaboration with other departments and quality control teams to communicate and achieve desired quality standards and outputs.
- Investigating incidents of non-conformance using effective analysis techniques.
- Developing and implementing solutions to problems, enabling optimized customer satisfaction and compliance.
- Coaching new staff in required knowledge and skills needed to maintain exceptional company quality standards.
- Driving internal policies on operations and safety to minimize costs and risks by safeguarding property, equipment and employees.
- Maintain records for continued quality control process analysis and evaluation.
- Delivery of an exceptional level of service to each customer by listening to concerns and answering questions..

Process Engineer (Intern), 12/2011 - 02/2012

Sudanese Sugar Company Ltd | Gunaid Sugar Factory Company , Sudan

- Working closely with a team of professional process engineers and production engineers to establish and deliver process to optimized needs.
- Handling the day-to-day running process of raw sugarcane entering into mills up to the final product leaving centrifugal into packaging and weighing ensuring high levels of productivity and progression .

Quality Control Engineer (Intern), 10/2009 - 01/2010

Shanghai-Sudan Pharmaceuticals Industries , Khartoum, Sudan

- Performing analysis of raw materials,sem-finished and finished products in process control.

Quality Control Engineer (Intern), 07/2009 - 07/2009

Agricultural Research Corporation | Pesticides Preparations, Wad Madani, Sudan

- Consistently performing pesticides analysis in order to meet required specifications.
- Collating , analyzing and providing information through concise

reports, seeking constant improvement opportunities.

EDUCATION

Bachelor Of Science In Engineering Technology , Chemical Engineering Technology , 03/2010
University Of Gezira - Wad Madani, Sudan

ACHIEVEMENTS

- Six Sigma Green Belt | UDEMY | Dec 2020 -Jan 2021
- Business English ; English for Management and Leadership | COURSERA | University of Arizona | Dec 2019 - Jan 2020
- Quality Management Skills Diploma | Alpha Academy | Nov 2019 - Dec 2019
- Project Management Professional (PMP)| University of Adelaide Massive | Edx | Jul 2016 - Aug 2016
- OSHA WORKPLACE SAFETY (General Industry) UDEMY| 10hrs MOOC | Jun 2016
- OSHA Safety Pro: PPE : Personal Protective Equipment | UDEMY | Jun 2016
- Industrial Safety Training (PPE, HSE, FIREFIGHTING) | AHG - Jeddah | Nov 2012
- ISO/IEC 17025 :2005 training course | AHG - Dammam | Apr 2015
- Maintaining the technical data of ISO/IEC 17025:2005 | AHG | 2015
- ISO22000/2005 Food Safety Management System (FAMS) BEMCON - AHG | Sep 2014
- Quality and ISO QMS Awareness | Sep 2014

MEMBERSHIP

Saudi Council of Engineers

- Membership/Role: General Chemical Engineer | Member since: August 2013

Sudanese Engineers Council

- Membership/Role: Chemical Engineer | Member since: January 2011

IT SKILLS

- Internet skills, Windows and windows troubleshooting .
- MS Office mainly MS Office Word, PowerPoint,Excel and Outlook .
