OBJECTIVE

- My objective is to be one of the greatest programmers in the world, to be a programmer means dealing with mobile apps, websites, databases, servers and that's what I am living on. I believe in innovation and continues development in each part of the company because it will affect all the members of the company not only me.

WORK EXPERIENCES

Freelancer , Remote

May-2021 - Present

Full Stack Developer

I am currently working as a freelancer doing the following tasks

- Consultation in LIMS Softwares for LabSystems.
- Developing web applications using the Laravel framework and ASP.NET.
- Dealing with Servers (CentOS, Ubuntu, Windows Server).
- Domain & Application Management.
- Configuring Payment Gateways.
- Technologies Consultation.
- Solution Expert.

LabSystems , Saudi Arabia

Nov-2017 - May-2021

Software Developer - LIMS Consultant

I am working on the LabSystems company as a software developer, to deal with web applications, mobile applications, and LIMS Software configurations.

- Developing web applications using PHP based frameworks & ASP.NET.
- Working on LabSystems LIMS (the first Saudi LIMS) which is based on ASP.NET.
- Configuring Laboratory Information Management System (LIMS) Softwares like iVention iLES, LabVantage LIMS & LabSystems LIMS.
- Building and working with an Application Program Interface (API).
- Managing the projects through GitLab.
- Tracing and fixing bugs in the applications.
- Managing and deploying projects through web hosting (Linux/Windows).
- Testing and validating web applications for functionality in different browsers and at different resolutions.
- Enhancing the look, functionality, and appearance of the websites.
- Working on Virtual Machines Applications like VMware.
- Publishing application using Parallels Remote Application Server.

Services Certifications

https://www.makeyourownproject.com/Certifications/Hassan_Service_Certificate.pdf

Al-Ahsa International Airport , Saudi Arabia

Jun-2016 - Sep-2016

Software Developer (Co-Cooperative Training)

I worked in the Al-Ahsa International Airport as a trainee for assisting and improving the current work in Airport which including statistics, monitoring, programs, and issues. Our duties were not limited to the following:-

- Creating statistics for daily, monthly, and quarterly flights (Departure and Arrival)
- Creating a desktop application for managing the client contacts of the Airport.
- Creating Flights Monitoring System (desktop application) add the missing features in the current airport system (General Authority of Civil Aviation).

I got a very good grade from the Al-Ahsa International Airport Training Manager with great appreciation certificate (GPA: 95 out of 100).

EDUCATION

Bachelor of Science, King Faisal University

Sep-2012 - May-2017

Computer Science - GPA 3.7 out of 5

I studied in King Faisal University, College of Computer Science and Information Technology in the Computer Science Department that gave me the ability to deal with apps, websites, databases, codes and everything that are related to the Computer Science Department.
