Career Objective

To obtain a challenging employment opportunity, which fully utilizes my professional skills, educational qualification and experience in the field of Civil Engineering.

Educational Credentials

- Master of civil engineering (Construction Management)-M.Tech.
Jawaharlal Nehru Technological University, Hyderabad, India.
- Bachelor of Civil Engineering-B.Tech
Jawaharlal Nehru Technological University, Hyderabad, India.
- Intermediate from Narayana Junior College, Hyderabad, India.
- Schooling from St.Joseph's Public School (ICSE), Hyderabad, India.

Professional Work Experience

- 7+ years of experience as a civil engineer in Qatar, UAE and India.

Professional Experience:

1. Sr. Manager- Projects

Robomatic Precon Pvt.Ltd

Hyderabad-India

(April 2019-Present)

1. Robomatic Precon Pvt.Ltd is a Precast wall system company. It manufactures and installs precast wall panels made with Acotec Technology.
2. As a Sr. Manager of projects, my job role is to manage the workings of a project from its inception to its completion.
3. I conduct the product briefings, techno-commercial presentations and meetings, conducting required tests on the wall panels, co-ordination with

sub-contractors, preparing technical documents (Test reports, method statements, product specifications, checklists, ITP etc).

4. As part of Business development regime, I handle queries, give briefings about the manufacturing and installation procedures of the product and it's technical aspects etc.
5. I prepare and finalise the quotations and scope matrix between the contractor and the client.
6. I prepare the contract agreements for the projects.
7. I certify the quantities to be billed and follow up with the clients for the monthly billed payments.
8. I prepare the project timeline and the project installation plan with the required resources in accordance with the timeline.
9. I direct the operations team for the installation as per the project plan.
10. I ensure all the Quality standards and parameters are maintained as per the Project Specifications.
11. I handle the NCR closure works that are raised by the client.
12. I review and approve the raw materials and the consumable items that are used in the manufacturing process and the installation works on site.
13. I supervise the entries in to the SAP module and ensure it is updated as per the requirement.

2. Civil Site Engineer

Salini Impregilo, Dubai.
