Objective

Highly motivated and dedicated, looking for a challenging role in a reputed company to utilize my engineering skills in order to contribute to the company's growth. Enhance my knowledge by exploring and analysing innovations in our rapid environment with the intention of supporting both the company's growth and self skills and abilities.

Education

Industrial Engineering | Tabuk University 2022
GPA: 3.74 OUT OF 5

Projects

-Feasibility study for coffee shops and market prediction in TABUK 2021: The idea of the project is summed up in its orientation to the cafe market in Tabuk, with a modern and unique character in providing hot drinks, cold drinks, coffee and cake in a new way in terms of service and prices. The project targets individuals and familiesIt aims to attract people from the age group of 15 years until they reach the age of 60 years and more.It is considered an outlet for all and also falls within the measure of quality of life in the city.The quality of life in the Kingdom of Saudi Arabia is in a stage of growth, and the number of cafes has increased in conjunction with the modification of the lifestyle of the Saudi citizen.

-Parking system : 2018
