OBJECTIVE

Fresh graduate civil engineer, looking for full-time job opportunity with well-respected engineering firm where I can utilize and transfer my civil engineering background to the company's objectives/projects and co-workers. I am committed to start my career path as civil engineer to expand on the engineering experience which I gained from KFUPM.

EDUCATION

B.S. in Civil Engineering | King Fahd University of Petroleum and Minerals (KFUPM)

AUG 2021

- **Senior Project:** Structural Design of Cantilever Retaining Wall Using Glass-Fiber-Reinforced-Polymer (GFRP) bars (Manual and Software Approaches).
- **Relevant Coursework:** Structural Analysis, Reinforced Concrete, Geotechnical Engrg., Numerical & Statical Methods, Transportation Engrg., Engineering Economics.

EXPERIENCE

Trainee (Assistant Civil Engineer) – COOP Program | Saudi Aramco

JAN 2021 – AUG 2021

Involved in civil project scope development and benchmarking. Engaged in multiple engineering feasible activities. Acquired general overview of Saudi Aramco Engineering Standards (SAES). Exposed to multiple project management activities regarding civil works.

SKILLS

- Excellent verbal & written communication skills.
- A sound knowledge regarding the structural analysis and design, and other civil engineering background.
- Competent use of specific civil engineering software (e.g., STAAD Pro.), and MS office (e.g., MS Excel).
- Basic Project Management Knowledge and Activities.

LICENSES AND CERTIFICATIONS

- Certified Associate in Project Management (CAPM) (**Ongoing**) – Present.
- Professional Accreditation (SCE) – Oct 2021.
- Managing Project Risks & Changes Course – Aug 2021.
- Initiating & Planning Projects Course – July 2021.
- 2nd Place Award in “Ultra-High-Performance-Concrete” Competition – 2019.
