## Human Resource Management

---

### Objective

I seek to develop personal skills to reach higher positions in my career. My work enthusiasm helps me to make sure I turn in efficient and quality work on time. This is seen in my professional experience as a Car and parts dealer. My past work experiences have shaped me to adjust and deal with different work demands such as flexibility in time, the value of money, and fitting into the standard of the customers. To work for a reputable organization, my skills are well-aligned with my work experiences and the desire to learn more about different Human Resource practices to fit the standards of the organization. My willingness to learn and adapt to changes in the environment helps me to go forward and improve in my chosen career.
