HIGH-PERFORMANCE HSE MANAGEMENT PROFESSIONAL

Accomplished Environmental, Health, and Safety Professional with over 27 years of career advancements and exceptional excellence in health, safety, and environmental management systems, mirrored with an extensive track record of achievement and often exceeding expectations of corporations.

PROFILE SUMMARY

Seasoned, accomplished, and strategic leader with years of experience in directing and coordinating strategic safety planning, organization, and execution of the H.S.E. Management activities include emergency evacuation, risk mitigation strategies, and H.S.E. management. Skilled in assessing all H.S.E. policies & procedures/ manuals, emergency response procedures, and advising for improvisation. Exposure in formulating and implementing safe systems to foster a safe workplace across the organization. Equipped with a proven track record of success in developing and enforcing onshore and offshore emergency response plans.

Worked with different departments as preventive health advisor, Environmental and safety auditors. I have published many articles about H.S.E. in a local newspaper such as Climate change and the global spread of dengue fever, add them up (A look at food additives from a regulatory perspective), Sodium in bottled water, Trans fatty acid, and Energy drinks.

Insightful experience in improving the employer staff about H.S.E. knowledge and skills to perform good health and safe working environment. History of innovations and enhancements that have elevated staff productivity while maintaining a perfect safety record throughout the organization. Working in cooperation with many government sectors such as municipalities, ministry of education, ministry of health and ministry of environment, water and agriculture. Working with the government to write many Covid-19 protocols. Participating in writing Saudi Aramco Environmental Health and Safety Standard (SAEHC).
