**Career Objective** To obtain a challenging position in your company in Engineering field with an international co-operation that will contribute my job experinces

**Personal Data:**

**Name/ Wael Ibrahim**

**Nationality and Adress** /Egyptian/.Hurghada –Red Sea -EGYPT  
Was Residence in kingdom Saudi Arabia-KSA

**Military status:** Exempted

**Egyptian driving license car** : valid up to 2030

**Saudi Driving License Car** : valid up to (1448- 2027)

**Intercontinental passport:** valid up to ( 2027 )

**Member of Egyptian .Engineers** : syndicating at 03.08.2005

**Egypt .Engineers Syndicating** : nr(56/07898 at 03.08.2005 )

**Recording in kingdom Saudi Arabian For Engineering-KSA**(Saudi Council of Engineers –Nr-293740 )

**Education – Qualification**

**Bachelor's:** Electrical Engineering

**Over all Grades :** GOOD ... **in Assuit University – 2004**

**Graduation Project :** **Over all Grades: Excellent**

**Project field: Mechanical** power Generators & Motors control systems & panels

**\*\*analysis chaotic digital signal in air from Transmitter to Receiver & solve problems of noise.**

**\*Design and Maintenance of Networks Satellite -Dishes (Central & Stations)**

**Good Study courses:** in Assuit University.

**Languages:**

- Arabic : Mother Tongue

-English : Having a very good command of English fluency (Written & Oral)

-Germany & Russia & Polish & French : good . In Assuit University

**Ability to learn and study high languages when need it & help for my work**

**COMPUTER SKILLS:**

1- Have wide knowledge in Microsoft Office (Word –Excel –power point) and PMP courses

2- Excellent Knowledge of **computer applications** and soft ware and hard ware computer component and outlook & internal E-mails inside work. AutoCAD course-ORACEL-I-Gat-update all my skill

3 –good knowledge in all administrations works and all office Technique with good control

**Other skills/**

Approval to give all my time to my work and travelling according to work requirements and very good to write technical reports and communicate effectively with a leader character with searching and look for the new ideas and every useful technology and science to grow up my work

And **PMP courses in practical** and administration with technical work (item store and engineering store with technical reports and **action plane and maintenance tables** all time with a finance request for **contractors** and take percentage for requests co-operation with all departments and with high administration and sooth and **coordination between all departments work for developmenst my work**

## **-COURSES AND TRAINING**

- 1- Good experience and training in Egyptalom (The Egyptian Company for Aluminum & Metal Industries) in Nagea Hamadi -Qena**  
From (25 .08. 2001 to 6. 09 . 2003 ) with Excellent certificate
- 2- Good training in Egyptian Telecom Company (Siemens)**
- 3- Mobile Courses package and good courses in(GSM Technology & C DMA and GPRS courses) in Cairo University from 2008 to 2010)**
- 4- In TV and Radio Stations in Luxor & in exchanger of Electricity Station**
- 5- GOOD training in Europe (Poland-Germany) in factory for ELECTRIC+ MECHANICAL**
- 6- A Good training & Course in Design and Maintenance of Networks & Satellite -Dishes (Central & Stations for all buildings & places and hotels )---at the center of technology in the Red Sea governorate building - from 07/02/2012 to 16/02 / 2012 with a experience certificate approved by Secretary-general of the province**
- 7- a good training & Course in Maintenance of the electronics cards and electrical boards .and maintenance of the computer. at the center of technology in the red sea governorate building from 02/2012 to 03/2012 with experience certificate .approved by Secretary-general of the province**
- 8- Civil Protection and safety - prevention at gouvernouments building**
- 9- solid work basic design applications f 9/2/2016 to 19/2/2016 with general Grad Excellent and PMP IN PRCTICAL IN FIELD**
- 10- Recordeing in kingdom Saudi Arabian for Engineering (Saudi Council of Engineers -Nr-293740)**

## **previous Experience :(more than 15 years experiences in maintenance & operation system) and CONSTRUCTION FIELD**

- 1 - as Maintenance and Operation System Engineer (2005 -2011) in:**
  - sea wave hotel
  - T- EGYPT Company (cooling & air condition & kitchens equipments
  - in Makadi palace ( 5 stars hotel )
- 2- as Project Manager - Chief Engineering(12/2011 -5/2015) in:**  
**Aqua Fun Hotel and Reemyvera Hotel 5 stars Hotel in Red Sea -Hurghada**
- 3 -as Manger Electric -- Mechanical( ( Maintenance and operation system) for Electric and mechanical work in ( building laskapanas and Sentido hotel) and build new hotels and resorts in Sharm Red Sea Company for Tourism Development and hotels-- in Marsa Alam from 6/2015 to 4/2016**
- 4 -work as Site manager (ENGINEER)for maintenance & operation system in Zahran holding Company for operation & maintenance system in kingdom Saudi Arabian -KSA-(all maintenance & operation system)for(all hospitals & hotels & university )from 5/2016 tell 4/2018**
- 5-as Electrical Engineer Site Manager in city BATHA IN KSA Maintenance & operation system include(site building & hotels and hospitals & University's) in Dar Albenaa company -ksa (overhaul of the -(Abstracts -Financial Transactions -Spare Parts for sale- Transactions recovered Disposables)+ (Coordinator of projects and tenders & technical from 5-2018 tell 5-2019**
- 6-as project Site Engineer in AL Rama com. For contraction and maintenance working from 5/2019 tell now**

**My work in all company and Hotels & Hospitals and University are including:**

**1-Maintenance and operation Sysetem in all Electrical and Michanical**

2-Administration and technical work ( item store-engineering store—Time sheet--FedEx transfer - (Abstracts –Financial Transactions –Spare Parts for sale-Transactions recovered – Disposables)& technical reports-action plane –maintenance tables all time- and finance request for contracture &make percentage forrequest –cooperation withall department high administration and **PMP COURSES**

Infrastructure planning scheme for electric power generation, distribution lines, transmission lines, and substations.-- [Safety standards like EHS, OHSAS, and BB](#)

[Factory operation, maintenance and testing](#) of switchgear, circuit breakers, relays and transformers.

Use electrical tools such as voltmeter and ammeter implement wiring and grounding system

Connecting, testing and operating underground cables.

[Monitoring system for power generation, transmission](#) and use, including malfunctions .

with power requirements for site machinery&the distribution system designed accordingly.

With follow the complete installation and commissioning of heavy construction equipment and machinery and keep everyone's commissioning record. And understand electrical drawings and ensure machine availability

In-depth knowledge of pneumatic and hydraulics.

Able to handle critical situations regarding machine breakdown.

[Maintenance planning in relation to machine availability](#) by deploying adequate resources.

Localize OEM parts with proper validation and analysis to reduce cost carry out various activities related to root cause analysis,operations, installation, maintenance, defect correction, safety checks on various equipment, analysis each individual process, workforce allocation on based requirements.

[And work on spare parts management activities related](#) to identifying critical spare parts, localizing

And work on spare parts management activities related to identifying critical spare parts, localizing spare parts and reducing spare parts inventory through improving component life.

Anomaly management system to identify and treat all anomalies.
