Dammam, Saudi Arabia

❖ EXPERIENCE

July 2007 – Current.

Lead Electronics Tech, Saudi Aramco

As a Security Systems Tech, I have over 15+ experience on various projects which involves installations, execution and commissioning.

I currently lead multi-work stream maintenance like SACS and IDAS upgrade, smart gates project and others. I am passionate about the work and I do but even more devoted to cultivating a positive and efficient team environment. Whether in office or in the field, my door is always open to all.

March 2020 – Current.

Quality Specialist, Quality and Excellence Contracting Company.

Experienced professional skilled in procurement, subcontractor management, and project cost control. Expertise in supplier evaluation, negotiation, and finalization. Proven ability to review subcontractor proposals, identify additional scope, and manage variations. Proficient in certifying subcontractor payments and assisting with project budgets. Strong in overseeing operations, ensuring commercial and contractual compliance, and leading teams to achieve goals efficiently.

❖ EDUCATION

Associated degree on Industrial Electronic & Control, College of technology at Dammam
