

# PROJECT MANGER & WATER RESOURCES SPECIALIST

## Mohammad Alfaki Awad

### PROFILE

Throughout his academic and professional career, Mohammad Alfaki Awad Mohammad has specialized in the management of large-scale water infrastructure projects, encompassing engineering, design and supervision of works, contract administration, budgetary control and contract management.

With more than 22 years of experience, he has a remarkable ability to maintain quality and integrity ensuring organization standards and policies. Customer orientated, stress tolerant and with great communication skills. I am detailed orientated with strong organizational skills, able to handle a demanding workload, to balance priorities and meet project deadlines as a leadership. I worked on many projects for implementing and supervision of storm water, water supply and sewage treatment plants and I participated in preparing more than 135 water infrastructure studies, storm water drainage, water supply and Sewage systems for several KSA Municipalities of Jeddah, Makah, Alahasa, Jazan, Abha, Taif, Riyadh, Khmais Mushait, Aljubail. Presently, I work as a Project Manager of supervision the implementation of water supply networks in Albshaier and Alfah East airport scheme in Jeddah, Contract No. (17A).

### PERSONAL INFORMATIONS

NAME: Mohammed Alfaki Awad Mohamed

Date and Place of Birth: 21/08/1974, Sudan.

Nationality: Sudanese.

Marital status: Married.

Mobile: +966500204332.

**Emails:** [e.faki@live.com](mailto:e.faki@live.com) , [akwan205e.faki@gmail.com](mailto:akwan205e.faki@gmail.com)

### UNIVERSITY QUALIFICATIONS

#### Civil Engineering | 1998

Sudan University of Science and Technology, Khartoum, Sudan

### PROFESSIONAL CERTIFICATIONS

#### Attended the Project Management Professional (PMP) ® | 2018

Milestone Training Center, Khartoum, Sudan

#### ISO 9001 Awareness and International Auditing (ISO) ® | 2016

Road Institute, Riyadh, KSA.

#### Computer Sciences Course ® | 2000

General Administration for Training and Educational Rehabilitation.

### OTHER TRAINING

#### Courses

- Material Testing for Aggregate, Soil and Asphalt and Concrete Testing Road Institute, Riyadh, KSA, 2013.
- Civil Work utility, Road Institute, Riyadh, KSA, 2012.
- Density in Place by Nuclear Methods Road Institute, Riyadh, KSA, 2011.

### TECHNICAL ASSOCIATIONS

- Member of Saudi Council of Engineers (Consultant degree).
- Member of Sudanese Engineering Council.
- Participant in the Project Management Institute (PMI) ®
- Participant in American Society for Testing and Materials (ASTM).
- Participant in American Association of State Highway and Transportation Officials (AASHTO).
- Participant in American Water Works Association (AWWA).
- Participant in European Water Association (EWA).
- Participant in International Water Association (IWA).

# PROJECT MANGER & WATER RESOURCES SPECIALIST

## Mohammad Alfaki Awad

### WORK EXPERIENCE

AUG. 2009 – TO  
DATE

- **GULF ENGINEERING HOUSE, KSA.**
- **PROJECT MANGER, WATER RESOURCES EXPERT.**

**Gulf Engineering House, KSA.**

Administration and management, cost control, time management, risk management and communications management. Supporting the Client in all Technical disciplines. Reporting. Representing the client's interests at the project during the design and construction phase.

#### PROJECTS

1. Supervision of the implementation of Sewage networks and house connections in eastern Riyadh, Project, Contract No.1, (NWC, RIYADH BUSINESS UNIT). (**AUG. 2009 – AUG. 2012**).
2. Design and supervision of the implementation of water supply networks in Albshaier and Alfah East airport scheme in Jeddah, Contract No. (17A) contract (NWC, JEDDAH BUSINESS UNIT). (**SEP. 2019 – TO DATE**).

- **HEAD OF WATER RESOURCES DEPARTMENT**

**Gulf Engineering House, KSA. (AUG. 2012 – AUG. 2019).**

Design and supervision of all types of water resources engineering projects as storm water drainage, water supply and Sewage systems. Participated in preparing more than 135 water resources studies for several Municipalities in KSA, Jeddah, Makah, Alahasa, Jazan, Abha, Taif, Riyadh, Khmais Mushait, Aljubail , Eastern Province Municipality, Riyadh Airport and Saudi Railways Organization .

No.	PROJECT NAME	CLIENT
1	Technical studies to prevent the hazards of floods and storm water drainage in Khamis Mushait Governorate (sixth phase), project to ward off the dangers of floods and storm water drainage of Al-Wesam, Al-Musa, Al-	Municipality of Khamis Mushait

## PROJECT MANGER & WATER RESOURCES SPECIALIST

### Mohammad Alfaki Awad

---

JAN. 2008 –  
JUL. 2009

■ **PROJECT MANGER**

**Alifreez Contracting Company, Khartoum, Sudan.**

*Design and implementation of Sewage treatment plant and Sewage networks at, north Khartoum, Sudan.*

Design and supervision of works, contract administration and management, cost control, time management, risk management and communications management. Supporting the contractor team in all Technical disciplines. Reporting. Representing at the project during the design and construction phase.

AUG. 2007 –  
DEC. 2007

■ **PROJECT MANGER**

**Repida Construction Company.**

*Design and implementation of Bahri Sewage treatment plant Project, Khartoum Bahri, Sudan.*

Supervision of works, contract administration and management, cost control, time management, risk management and communications management. Supporting the contractor team in all Technical disciplines. Reporting. Representing at the project during the construction phase.

JUN. 2005 –  
JUL. 2007

■ **PROJECT MANGER**

**Aldolei Contracting & Trading Services Company, Yemen. (The World Bank).**

*Design and implementation of Storm Water Drainage , Environmental, Bridges and Road Works in cities - Al Muwaqqar – Shabariq in Alhodyddah Province, Yemen.*

Supervision of works, contract administration and management, cost control, time management, risk management and communications management. Supporting the contractor team in all Technical disciplines. Reporting. Representing at the project during the construction phase

JAN. 2004 –  
DEC. 2004

■ **SENIOR WATER AND WASTEWATER DESIGN ENGINEER**

**Washington Testing and Consulting Services, Yemen Branch.**

Design and supervision of all types of water and wastewater engineering projects, such as detailed Studies & Designs for Water supply , Sewage , Road protection and Environmental , Design of main and distribution lines water wastewater networks..

JAN. 2000 –  
NOV. 2003

■ **CIVIL ENGINEER**

**Alifreez Contracting Company, Khartoum, Sudan.**

*Implementation of the sewage treatment Plant of Al-Remlieh, South of Khartoum Project.*

Inspection and Monitoring. Stakeholders Management. Site and Interfaces Coordination. Reviewing and providing comments as required on all as-built drawings. Supporting On-site staff in all Technical disciplines. Operations and maintenance manuals review. Test results review. Reporting. Testing & Commissioning supervision.
