### PERSONAL INFORMATION

**Present Address** : C/o AIS (Advance Inspection Services)  
3661 Rd 112, Al Jubail Industrial Area  
35717-8185, Kingdom of Saudi Arabia.

**Home Address** : Piddig, Ilocos Norte, Philippines 2912

**Date of Birth** : June 18, 1990

**Nationality** : Filipino

### EDUCATIONAL BACKGROUND

School/Institution	Degree / Certification	Dates in Attendance	Philippine License
Mariano Marcos State University	Bachelor of Science in Electrical Engineering	June 2007- March 2012	September 2012 (0049886)

### CAREER OBJECTIVE

To work in a company with an effective environment conducive for a person success, intellectual growth and career advancement and to achieve a position that would offer job satisfaction and channels for application of knowledge gain.

### KEY QUALIFICATION

- Registered member of Saudi Council of Engineers (Membership ID Number 258933)
- Registered Electrical Engineer since September 2012 (Philippines License No. 0049886)
- Having 8 years' experience in the field of Quality Control and Site Supervision of Electrical and Instrumentation activities.
- Competent in organizing, directing and controlling operation of electrical and instrument quality department.
- A resourceful leader with proven skilled in leading and directing personnel towards the accomplishment of a common goal.
- Ability to effectively work in Multicultural Teams as a member.
- Ability to work under pressure and meet deadlines.
- Safety oriented based on the project requirements.
- Excellent written and oral communication skills
- Computer Literacy in Microsoft Word, Excel and Power Point.

### SPECIFIC JOB EXPERIENCE

**Company** : Advance Inspection Services (AIS)  
**Position** : Electrical And Instrumentation Qc  
**Date** : July 2019 to Present  
**Project** : Maaden Bauxite Aluminum Company (Upgrade Project)  
**Client** : (Maaden)

#### Job responsibilities:

- Over all in charge for Electrical and instrumentation project, installation, testing, commissioning, functional testing and project hand over.
- Witness for factory acceptance test (FAT) and site acceptance test for different electrical and instrument equipment.
- Responsible for installation and testing of motor, winding insulation resistance, winding resistance, polarization index, ptc, rtd, space heater, no load and with load test, rotation, vibration, noise, temperature, starting current, output current and voltage.
- Witness calibration of instruments Pressure Transmitters, Temperature Transmitters, Differential Flow Transmitter, RTD, Control Valve, On-OFF Valve, Pressure Gauges, and Temperature Gauges etc. and prepare the calibration certificate accordingly.
- Witness and inspection approval of cable tray and conduit installation and make sure that it is as per Aramco standards.
- Inspection of installation of instruments as per hook up drawing e.g. Pressure Transmitters, Temperature Transmitters, Differential Flow Transmitter, Flow Transmitter (Magnetic, Vortex), Control Valve, Level Transmitter, Pull Wire, Belt Alignment, Block chute Sensor, Weight meter, On-OFF Valve etc.
- Supervision and monitoring site activities, troubleshooting and testing.
- Responsible for the over-all implementation of Quality Control related electrical works accordance with project specifications and Engineering Standards.
- Verify all required inspection report and test records are systematically generated and compiled according to the approved QC Procedures.
- Keeping the files/Inspection records always updated.
- Review and approval of Inspection and Test Plan, Construction Quality Procedure and Method of Statement.
- Review and approval of loop folder for loop testing of field instrument.
- Review and approval of energization, solo run, and start up package.

- Witness and Inspection of Heat Tracing Panel Installation, PT, RTD Junction Box Installation and Heat tracing cable laying and Insulation Test.
- Coordinate with Contractor representatives regarding the implementation and quality of works.
- Provide sufficient feedback to QA/QC Manager on the day to day quality issues.
- To supervise and carry out effective implementation of work schedule to clear punch list.
- Verification of Material Storage and Preservation system as per Standards.
- Carry out material receiving inspection of approved electrical materials and accessories as per project specification and standard.

### SPECIFIC JOB EXPERIENCE

**Company** : Petroleum Chemical And Mining Company (PCMC)  
**Position** : Electrical Qc Inspector  
**Date** : February 2018 to June 2019  
**Project** : Fadhili Gas Program Project  
**Client** : Saudi Aramco

#### Job responsibilities:

- Review project scope of work and Electrical ARAMCO standards before the start of work.
- Check and inspection of material delivery conforming to the ARAMCO standard requirements and approve material by client and prepare receiving report.
- Verify the equipment and devices used in the project meets the required specifications per project requirements, Standard and tested in accordance with the procedures.
- Monitor the Underground cable installation, check the required burial depth and spacing requirements to adjacent installations, prior to backfilling.
- Witness for medium and low voltage installation, termination, splicing and jointing and testing of underground & above cable system.
- Witness inspection of medium voltage insulation damage repair as per Aramco/vendor recommendation.
- Testing of cable continuity, Insulation and HI-POT test.
