Aasim Altaf

Pharmacist, Medical Assistant

Profile

Dedicated and highly motivated pharmacist with 1 years of experience in providing pharmaceutical care and promoting patient well-being. Seeking a challenging role in a reputable healthcare institution where I can utilize my clinical expertise, communication skills, and dedication to optimizing medication therapy for patients.

Work Experience

Primary Health Centre, Sheeri

September 2021 – December 2022

- Review and interpret physicians' prescriptions to ensure accurate medication dispensing.
- Provide medication counseling to patients, emphasizing proper usage, side effects, and potential drug interactions.
- Collaborate with healthcare providers to optimize medication therapy and ensure the best possible patient outcomes.
- Perform drug utilization reviews to identify and resolve potential medication-related problems.
- Compound and prepare sterile and non-sterile medications, including IV admixtures and chemotherapy agents.
- Manage inventory, order medications, and ensure compliance with regulatory guidelines.
- Conduct medication therapy management (MTM) sessions to address medication-related issues and enhance patient adherence.
- Administer immunizations and educate patients about vaccination schedules and benefits.
- Participate in medication safety initiatives and ensure compliance with state and federal regulations.
