*I am a programmer and I have high skills in computer fields. I am a dedicated, organized and methodical individual. I have good interpersonal skills. I am keen and very willing to learn and develop new skills. I am reliable and dependable. I have an active and dynamic approach to work and getting things done. I have capacities of leadership, fast learning, and communication skill.*

*I am seeking to have a professional job in your company where I can apply the skills and knowledge that I have learned and acquired during my academic years. To get professional experience, develop my abilities and skills, and achieve good personal growth to improve my career path and contribute to the development and growth of the organization. I am looking forward to adding great contributions to the computer science fields, cybersecurity, and artificial intelligence.*
