OBJECTIVE

A computer science graduate who is enthusiastic about the field of work. I am seeking to develop myself. I studied at the Imam Muhammad bin Saud Islamic University the basics of programming and I worked on an application that contributed to the establishment of a system that helps the employees at King Saud University for Health Science.

EDUCATION

Bachelor's | AL Imam Mohammad Ibn Saud Islamic University
2015 – 2020

I majored in the Imam University in Computer Science and gained a lot of skills in fields related to computer science. Also, took an overview of database building, artificial intelligence, and natural language processing before I graduated with a GPA of 4.44 with honors.

EXPERIENCE

Trainee | King Saud bin Abdul-Aziz University for Health Sciences.
JUNE/2019 – AUG/2019

Summer training in the IT department at King Saud bin Abdul-Aziz for Health Sciences University, it has contributed to the establishment of a system that helps the department secretariat coordinate transactions between them.
