PROFESSIONAL EXPERIENCE

Specialty Pharmacy Pharmacy Intern, Aug 2022, Apr 2023

Walgreens, Dayton, Ohio, United States

- Effectively communicated with patients to schedule medication deliveries and verify medication allergies
- Updated patient electronic medical records in a timely and accurate manner
- Initiated prior authorizations for patients to obtain specialty medications
- Communicated with insurance companies and doctor offices to resolve issues in the prior authorization process.
- Dispensed specialty medications at the pharmacy in a safe and efficient manner

Critical Care Pharmacy Intern, Mar 2023

Kettering Health Hospital, Dayton, Ohio, United States

- Reviewed patient charts and medication lists to identify potential medication interventions
- Developed and implemented medication management plans to optimize patient care
- Collaborated with the medical team to discuss interventions and necessary medication changes or addition
- Educated pharmacy technicians on the components of the rapid sequence intubation kit

Infectious Disease Pharmacy Intern, Jan 2023

Miami Valley Hospital, Dayton, Ohio, United States

- Reviewed blood culture updates, antibiotic regimens, and doses to ensure optimal patient care
- Communicated interventions to the team during antimicrobial stewardship meetings
- Followed up on the recommended interventions and changes in imaging and cultures to ensure patient safety and compliance

Ambulatory Care/ Anticoagulation Pharmacy Intern, Dec 2022

Miami Valley Hospital, Dayton, Ohio, United States

- Adjusted warfarin dosing in both inpatient and outpatient settings, based on INR results
- Performed INR checks for patients in the clinic and communicated the results to patients
- Communicated with patients to get their history, including medication allergies, diet, and other medications
- Counseled patients on warfarin, including its risks and benefits, and how to use it
- Monitored the need to continue, discontinue, or adjust the dose of other anticoagulants based on lab results and chart notes

Critical Care Pharmacy Intern, Nov 2022

Miami Valley Hospital, Dayton, Ohio, United States

- Assisted in Code Blue by preparing the needed medications during the code
- Worked up patients by reading their chart notes, and monitoring lab results, and medication regimens.
- Provided medication-related recommendations to the medical team during rounds

Managed Care Pharmacy Intern, Oct 2022

CareSource, Dayton, Ohio, United States

- Reviewed medication lists to identify any medication problem, including duplication, drug interaction, and dosage changes
- Attended meetings to discuss various topics related to medication management, including managed care and implementation of ideas to improve patient care in a remote setting

Internal Medicine Pharmacy Intern, Sep 2022

Kettering Health Hospital, Dayton, Ohio, United States

- Discussed patient chart notes with preceptor to identify medication problems
- Provided recommendations for medication changes or additions to the medical team
- Discussed disease states and followed up on recommendations post-rounds

Ambulatory Care Pharmacy Intern, Jun 2022

Health Partners Free Clinic, Troy, Ohio, United States

- Counseled patients on their medications at discharge, including dosage, side effects, and interactions
- Verified and completed medication orders and refills
- Discussed patient cases with nurse practitioners to provide medication-related recommendation
- Answered drug information questions from patients and healthcare providers

Managed Care Pharmacy Intern, Jan 2021 - Apr 2021

AdhereHealth, LLC, Ada, Ohio, United States

- Performed phone calls to encourage medication adherence by checking on the last refill date and asking the patient about any issues that decrease adherence
- Communicated with physician offices and pharmacies upon patient request to order medication refills
- Directed patients to the necessary resources including transportation services, financial aid, and translation services to help them stay on their medications
