

MAHDI ALSANUNAH

Biomedical Engineering Technology concentration

Eastern province 

0547999228 

Mahdihussains@hotmail.com 

QUALIFICATIONS SUMMARY

Analyzing medical equipment's and defining them. knowing how to deal with electronics circuits. Having an experience on most of operation room equipment's and another equipment such as, medical pumps, dialysis and monitors. Also, dealt with suppliers while I was working on the hospital.

EDUCATION

Fall 2016 to Summer 2019

Bachelor of Science

Biomedical Engineering Technology concentration

East Tennessee State University, Johnson City, TN

- Biomedical instrumentation
- Medical imaging technology
- Human physiology and anatomy
- Electronics

-First aid and CPR

EXPERIENCE

Summer 2018 and Summer 2019

-Holston Valley Medical Center, Kingsport, TN

-Biomedical Engineering Technology Internship (192 hours)

One of the biggest medical centers at Tennessee state at United states which I have done more than 180 hours hands on

August 2020-present

- An intern at Alhabeeb medical group at Al khubar hospital

I have done an observation about how the hospital works and what kind of system they use to open job orders and to do inventory.

Worked on an incubators which means I opened up the equipment to figure out what's wrong with it and know exactly what is going on there.
