

# ENG/ALI TAHA DAWWA.

## PROJECTS MANGER .

**-CIVIL ENGINEER /STRUCTURAL.**

- ALBAAS UNIVERSITY.
- 1999 HD.
- GRADE: GOOD.

### **EXPERIENCE:**

The engineering works that were carried out by me, and since my graduation, varied between private metal structures and concrete installations of both types, whether a concrete structure cast on site (CAST IN SITE) or a precast concrete facility (PRE CAST) according to the following:

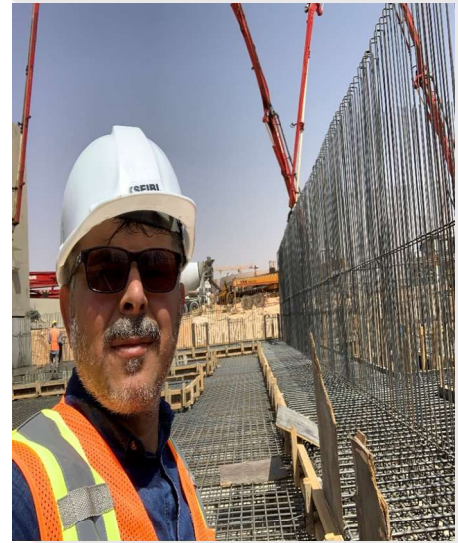

#### **Metal structures:**

1- The Saudi Ministry of Water, in the Hail Villages Water Project

The following buildings were implemented under my supervision and follow-up:

-The control building, the building of electrical services, pumps, and the building of chlorination sterilization are complete metal installations.

2- The Saudi Ministry of Higher Education, in a theater project

- CIVIL ENGINEER /STRUCTURAL**
- NATIONALITY: SYRIA.**
- MARRIAGE: YES.**

And the celebration halls in the university city / Al-Jouf University.

Under my supervision and follow-up, a metal structure (SPACE FRAME) is being implemented for a large theater ceiling of 2500 square meters, with a capacity of 2,200 people.

3-Implementing metal silos to store wheat in Syria

### **Concrete structures:**

It varied between concrete structures, on-site molding, or structures

Precast concrete as follows:

1- Concrete casting site installations (CAST IN SITE):

- Villa housing buildings in a residential complex of Hail Villages Water Project. The administration building has three floors.

2- Precast concrete structures (PRE CAST):

Buildings belonging to the Ministry of Interior with the implementation of metal towers that are necessary for monitoring and control.

- Building of the College of Education Project for Boys / Al-Jouf University.

- Theater celebrations for the Air Force Medical Services.

Theater and public ceremonies halls in Benin / Al-Jouf University.

Two floors commercial mall in - Riyadh, exit / 05, area of 45,000 square meters.
