Career Objective

My goal is to get a job that can help me enhance my skills and acquire new abilities to contribute in the organization growth.

Summary

- Good at handling both software and hardware.
- Capable of using multiple programming languages.
- Team Player
- Self-motivated.

Education

King Fahd University of Petroleum & Minerals (KFUPM), Saudi Arabia (KSA)

- **B.S. in Computer Science.** 2015 - 5/2020

Certificates

- IEEE-KFUPM Certification of attending **Introduction to Python Workshop.** 11/2018
- KFUPM Certification of attending **3D-Printing Course.** 11/2018
- Google Certification of attending **DevRel MENA Study Jams.** 1/2019

- M.C.I.T. & ICG Certificate of Web Developer (.Net). 4/2021
- SDA & M.C.I.T & SimpliLearn Certificate of Agile, Git and fundamentals of JavaScript. 7/2021

Experience

2020 – Present

Freelancer, Saudi Arabia (KSA).

I have developed and improved multiple PC applications. One of them was for a printing store. I used Agile development method to transmigrate an application from one language to another and improve it at the same time.

6/2019 – 8/2019

Honeywell – internships, Saudi Arabia (KSA), Dhahran Techno Valley.

Developer Intern, I developed an e-map that can help the user to distribute the available space on projects, calculate bills and keep a history of the services provided by the company for each project.

Developer Intern, I worked within a team and developed a visual basic tool that made the job of other colleagues work much faster and easier.

Developer Intern, I supported the Customer Solution Center (CSC) team in multiple tasks. One of these tasks was helping the CSC team in preparing a workplace for large projects.
