KNPC CLEAN FUELS PROJECT

HEALTH, SAFETY, ENVIRONMENT & SECURITY (HSES) CHARTER

We commit to achieving and maintaining the highest standards of HSES performance throughout the KNPC Clean Fuels Project and will strive in everything we do to avoid harm to people, communities, the environment and facilities

In doing this we must integrate HSES considerations into all that we do and promote a Zero Harm Culture where no one gets hurt or made unwell by our activities. We must also protect the environment, safeguard facilities and regard everybody's business. To achieve this we will:

- Work to ensure compliance with KNPC Health, Safety, Security and Environment (HSE) Policy requirements.
- Ensure that all personnel within our various locations understand their own HSES requirements and have attended an appropriate HSES Induction Course.
- Ensure HSES commitments and expectations from senior leadership are cascaded down to their own personnel in support of leading Zero.
- Share suitable HSES learning opportunities from External parties, KNPC Refiner Operations and Clean Fuels Project locations.
- Provide HSES governance for the successful implementation of the KNPC Clean Fuels Project HSES processes through senior leadership attendance and participation at the Quarterly HSES Steering Committee.

This Charter is a statement of our HSES commitments and expectations. It is underpinned by our organisational arrangements but fundamentally it is built on the foundations of our behaviours and attitudes to HSES. Everyone in the KNPC Clean Fuels Project will dedicate themselves to accomplishing successful implementation.
