## Experience

### Software Developer – WSMCO (FIXTAG)

Jan 2020 – present

Working as a web developer (React JS and Drupal). I am working with a team to develop web applications for clients such as Saudi Customs and Saudi Olympics. According to the team's need I work on back-end (Drupal) or front-end (React JS) development. Also, I am responsible of testing my work in development and fixing bugs.

#### Responsibilities:

- Write well-designed, testable code.
- Troubleshoot, debug and upgrade existing systems.
- Evaluate user feedback.
- Comply with project plans and industry standards.
- Ensure software is updated with latest features.
- Designing and developing APIs.

## Skills

<b>Programming Language:</b>	Java, JavaScript, C, C# and PHP
<b>Web Technologies:</b>	HTML, CSS, SCSS, JSON, Drupal
<b>Framework:</b>	Bootstrap and React JS
<b>Language:</b>	Arabic, English
<b>Tools:</b>	Postman, GIT

## Professional Strengths

- Experience and capable of working in a diverse work force.
- Strongly intuitive, creative, and able to learn new technologies.
- Detail oriented, flexible, and adaptable.
- Excellent client interaction skills and proven experience in working independently as well as in a team.
