Seeking a challenging career with a progressive company that provides an opportunity to enhance and capitalize my knowledge and technical skills in the field of chemical Engineering. Using my fresh knowledge in engineering field with addition to the teamwork spirit, we will together make an outstanding difference in the chemical industry.

EXPERIENCE

• October 2020 - present

I am currently working with Jadawell Water Factory Co. a company for water treatment .

Quietly controller, laboratory, inspector for production lines, Reverse osmosis operator and sterilization of lines.

Worked on ISO 9001- 2015 , in addition to Hazard Analysis Critical Control Points (HACCP)

• Cooperative Training

June 2018 – December 2019 at Basic Chemical Industries (BCI)

During my training, I have overseen and witnessed a variety of caustic soda plant activates as below:

- Basic process of caustic soda : brine saturation , primary purification and settling , filtration ,electrolysis
- Safety in handing of chemicals , safety in storage of chemicals .
- Laboratory: analysis of samples during the process at different stages and analysis of finished products. Handing of ICP, HACH spectrophotometers and turbidity.

Education

- September 2013 – May 2020

BS DEGREE IN CHEMICAL ENGINEERING HAIL UNIVERSITY

Skill

- Communication and negotiation skills.
- Able to work in a Team or independent.
- Excellent in ASPEN+ program and Minitab
- Effective planning

Certificate

- Design of renewable energy systems using Homer October 2018
- Hazard Analysis Critical Control Points (HACCP)
- Auditor lead skills Jan 2021
- Total quality management and the concepts of institutional excellence Jan 2021
