OBJECTIVE

To be part of a company in a challenging work environment of daily tasks and projects to utilize them via engineering perspective and seek an entry-level position to apply my mechanical and manufacturing engineering skills to design, build and test manufacturing equipment.

SUMMARY OF QUALIFICATIONS

- Mechanical and Manufacturing Engineering Technology – bachelor's degree
- High skilled with designing, building, and testing manufacturing and production equipment, including CAD/CAM equipment
- Abilities in machine shop operation, tool design, plus computer numerical control programming.

EDUCATION

2017 - 2020

Northern Kentucky University, Highland Heights, KY, USA

- Mechanical and Manufacturing Engineering Technology – Bachelor's Degree

RELEVANT EXPERIENCES and CERTIFICATES

02/2021 - Present

- Relevant experience: Mechanical Engineer in (Unisis Engineering Co). Khobar, Eastern Province, KSA

2020 - Prior

Relevant certificates: Bachelor of Science degree in Mechanical & Manufacturing Engineering Technology. (NKU)

- Certificate of Lean six sigma Green belt. (PDC)
- Certificate of Lean six sigma Black belt. (PDC)
- Certificate of Risk Management and Analysis. (PDC)
- Certificate of Future Path Career Essentials Program. (MISK)
- Certificate degree in Manufacturing Processes. (NKU)
- Certificate degree in Computer-Aided Design/Draft. (NKU)
- Certificate of Professional Accreditation from Saudi Council of Engineers. (SCE)
