EXPERIENCE

BHGE, KSA — MWD/ LWD Field Specialist

February 2018 - January 2021

- Logging and measuring while drilling.
- I have perfect performance in Quality Control and quality Assurance.
- I have planned many tasks to get the project done with given time with excellent organization skills, and work as safe as it can be performed.
- I have soft and excellent communication skills with the clients to perform the tasks as required .
- Optimization and data analysis .
- Excellent service delivery to Aramco clients .
- Excellent problem solver .
- Testing and Calibration equipment .
- Planner.

KCC, KSA — Industrial Engineer

February 2017 – January 2018

- Inspection pipeline network.
- Mani project planner .
- Hydrostatic pressure test for pipeline network.
- Material inspection .
- Quality control and quality assurance .

EDUCATION

University of Regina , Canada — Industrial System Engineering

January 2011 - December 2015
English institution

SKILLS

- Problem solver
- Leadership
- Good communication with Aramco clients .
- Good project planning and scheduling.
- Good software and hardware troubleshooting.
- Monarchical design reviewer .
- Testing electromechanical equipment .
- Investigate Failure Analysis .
- Navigate reservoir
- Project management
- Designing a healthy and safety environment.
- Designing and selecting mechanical material .
- Team oriented and I have the ability to work individually .
- Well organized and management skills.
- Design softwares (Auto CAD, Solid Works, and CNC programming and designing.)
- Six sigma.
- Supply chain management.
- PLC control for electromechanical projects.
- Data analysis engineering

AWARDS and COURSES

- QA /QC courses in Fadili Gas Plant.
- MWD & LWD Courses
- H2S Alive
- HUT and Boat sea survivals.
- LC Explosion awareness
- Handling radiation sources
- Safety injuries
- Safety and risk management
- Technical awareness
- QC/QA Aramco approval
- Lean six sigma
- Healthy and safe environment
