- Roto House co. for manufacture & printing packing & wrapping materials **production Engineer as a shift leader**) (January 2014- present)

Hobbies & Other Interests.

- Investigative — Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve searching for facts and figuring out problems mentally.
- Realistic — Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.
- Travelling and learning new things.
- Playing soccer and do track.
- It is important for me to stay active and challenge myself.
