Letter of Appreciation Presented to Mr. Belal Zaky Mohamed Hassan

The US Army Corps of Engineers would like to recognize the outstanding professionalism that Mr. Belal Zaky Mohamed Hassan has demonstrated while performing the duties as Quality Control Manager for a high priority project in Bahrain.

Mr. Belal Zaky Mohamed Hassan superb skills and knowledge as a Quality Control Manager gained the respect and confidence for the client, US Army Corps of Engineers and the end user United Kingdom Maritime Component Command Bahrain NSA II.

Mr. Belal Zaky Mohamed Hassan performed his duties beyond the average Quality Control Manager. Mr. Hassan ability to review and submit submittals in a timely manner was very positive moving the project forward. Mr. Hassan did a good job implementing the Three Phase Inspection process with his staff to reduce rework on the construction site. Mr. Hassan superb skills contributed to the project overall achievement in a very challenging environment, from February 2014 through May 2015.

The US Army Corps of Engineers take great pride in delivering a safe and quality project to every client.

This letter of appreciation is to give recognition and thanks to Mr. Belal Zaky Mohamed Hassan for his outstanding leadership and contribution for the success of project completion.

Good luck and job well done.

Belal Zaki M. Hassan Quality Control Manager

Mr. Belal Zaki expertise and management of the quality control program for the design and construction of the Parallel Taxiway from earthworks, concrete paving, asphalt paving, to edge lighting and signage, while working for American International Contractor Inc, is greatly appreciated. His performance very much enhanced efficiency, quality, progress, and success of the Parallel Taxiway construction on Musana Station August 2012 to January 2014. He performed always in a professional manner. USACE would always welcome Mr. Belal to any USACE project in Oman..

Egypt Utilities Management, Alexandria High Priority Projects - AWGA / USAID

TO WHOM IT MAY CONCERN

This is to certify that **Eng. Belal Zaki** has been employed as a Civil Engineer by **C. C. Johnson & Malhotra, P.C.**, the Contractor Quality Control (CQC) for Morganti / AIC LLC, JV, who is the Prime Contractor for Egypt Utilities Management, Alexandria High Priority Projects – AWGA / USAID. The project is funded by USAID (USAID Grant No. 263-0270-02) and constructed under US quality standards. From **September 2004** till **February 2005**, for the construction of Egypt Utilities Management, Alexandria High Priority Projects – AWWA / USAID.

The Project comprises the construction of 72 km of Ductile Iron pipe water distribution network, 34 km of water transmission lines having diameter between 100 and 1000mm, as well as the upgrades and modification works for seven water treatment plants together with their relevant raw water intakes, residual lines, in addition to the construction of a bulk chlorine storage facility in a remote area.

Mr. Belal Zaki was responsible for site supervision; including material / labor control, site construction monitoring and coordinating between site and technical office.

Mr. Belal's experience and engineering knowledge enabled him to perform his works in a professional manner and in conformance to the Project specifications and international standards.

He also proved him self as a cooperative and reliable individual, and we wish him the best in his future endeavours.

This certificate has been issued upon Mr. Belal's request, without any responsibility on the part of our companies.

ARCHIRODON CONSTRUCTION (OVERSEAS) CO. S.A.

G.S.P.L.A.J. BRANCH

Tripoli Harbour Breakwater Reconstruction Project

TO WHOM IT MAY CONCERN

This is to certify that **Mr. Belal Zaki Mohamed** was employed by our company the period from *December 2009 to June 2010* as a **QA/QC Marine Civil Engineer** in the **Tripoli Harbor Libya Breakwater Reconstruction Project**.

A project with a value of \$300,000,000 owned by **LIBYAN MARTIME AND PORTS AUTHORITY**, and the consultant is **ROYAL HASKONING** consultant architect engineers.

The project is to reconstruct the damaged sections of Tripoli Harbor North West Breakwater where required the placement of rocks, precast armoured cubes and accropodes. Main Breakwater is approx. 4700m. And damaged happened to all lengths of Breakwater, especially on the armour layer at sea side as well as on parapet wall and harbor area. First activity to reinforce the breakwater body is to extend berm at sea side and to add new armour layer on the slope, berm will be extended using rock 3-5 Ton, 5-8 Ton and concrete cubes (10T, 15T, 20T and 30T). Bedding for cubes will be constructed using stone block 2T-4T. Slope on some sections will be restored or reinforced with new armour of 2T-4T, 3T-5T, 5T-8T and primary armour of Accropodes 6.3m³ and 9.0m³. All activities will be constructed by Floating equipment (Floating cranes, Deck Barges, and Tugboats) and Land equipment (Tower Crane, Crawler Cranes, Dumpers, Trailers and Excavators).

Mr. Belal duties and responsibilities to assist the site engineer to inspect the permanent work, including delivered materials, in order to verify conformance with the contract quality requirements and the implementation of the company corporate quality system in accordance with ISO 9001:2000. Follow up survey work for placing armours in the break water Diving Engineer checking offshore Cubes – Accropodes and Stone Blocks.

Mr. Belal proved to be competent and reliable person and his good reputation within the company enabled him to perform his duties in a professional manner and earned the trust and respect of his colleagues.

This certification has been issued upon Mr. Belal's request without any responsibilities or obligations on the part of our company
