To whom it may concern,

I am writing this letter of recommendation for Muhammed Muhammed Alshehaby. First allow me to introduce myself, my name is Todd Watson, I have been the plant manager for Royal Crest Dairy for 10 years. I have been in the dairy production industry for 21 years. I was Muhammeds direct manager, and during that time we worked closely. I fully understand his capabilities.

Muhammed was very adapt at learning our system, he was trained as a relief HTST operator, which included starting up the HTST as well as processing product, he was a valuable part of our processing team. He was also our relief CIP operator, with knowledge of chemicals, and general cleaning of our dairy. Other duties included testing and receiving raw milk tankers, and production line with bottle washers. Muhammed was part of our HACCP team with quarterly meetings. After two years Muhammed was promoted to production supervisor overseeing a crew of eighteen personal.

Muhammed is a very capable and trustworthy employee. He would be welcome to come back to Royal Crest Dairy at any time. If there are any further questions, please feel free to contact me.

Respectfully

Todd L. Watson
Plant Manager, Royal Crest Dairy
